ENGLISH FOR ENERGY ENGINEERS

Утверждено

*Министерством образования Республики Беларусь
в качестве учебника для студентов учреждений высшего
образования по энергетическим специальностям*

Минск
РИВШ
2021

CONTENTS

Предисловие	4
Unit I. Energy Engineering	5
Unit II. Traditional Sources of Energy	31
Unit III. Gas Supply	66
Unit IV. Alternative Sources of Energy	94
Unit V. Nuclear Power	144
Supplementary Texts	180
Text 1. What is Energy Engineering?	180
Text 2. What Is Green Engineering?	181
Text 3. Energy and Ecology	183
Text 4. Types of Energy	184
Text 5. Types of Energy-2	186
Text 6. Wood Fuel Sources	188
Text 7. Fuel	189
Text 8. Alternative Energy Sources. Solar Energy	192
Text 9. Tokamak	195
Text 10. Storing Wind Power as Ice?	197
Text 11. Potential Energy Resources in Belarus	198
Making an Informative Abstract (Report)	203
How to Analyze a Graph?	211
Making a Presentation	222
References	229
